The main theme of the Conference is 'Employability Skills and Cultural Awareness'.

The Conference has been held for a number of years now and the balance of the programme has evolved to try and provide educational input, with practical advice, and the opportunity to meet and interact with other students in a different environment.

This is a conference specifically designed to meet the needs of a wide range of students. It is not orientated towards any curriculum area.

The programme has been designed to introduce these issues and to provide keynote presentations and activities that should enlighten and motivate.
